Anubhoothi

Begin your journey into the alternative!

A special two-day residential program by Bhoomi College for those looking to experience holistic learning and living!
Today, we are living in times of deep-rooted chaos and confusion, which in turn is leading to calamities in many spheres, be it social, political, cultural or environmental. However, merely succumbing to being a spectator or passing on the blame rarely benefits any situation.

Like it is said, "If you are not part of the solution, then you are part of the problem!" That is why we believe, it is imperative that youth today take charge and be part of creating an ecologically wise world.

Anubhooti is an offering to youth by Bhoomi College that includes many unique experiences – healing nature walks, local farmers’ market, sessions that connect ecology, economy, education and much more!

This immersion will kick start your journey into self-transformation and systemic change.

Come reimagine learning and living for yourself!

Venue: Bhoomi College Campus
Dates: Feb and Mar 19th-20th, 2022
