# Bhoomi Fellowship Programme

starting September 2021

- *Are you looking for livelihoods that foster sustainable living?*
- *Are you seeking experiences and knowledge that integrate head, heart and hands?*
- *Do you wish to learn in a way that connects science, humanities and management?*
- *Would you like to inspire children to live wisely on planet earth?*

The Bhoomi Fellowship Programme fosters a transformational process that enables fellows to relook, rethink, and re-examine perceptions of education, development and success. It engages them in an immersive, collaborative learning journey and offers spaces to reimagine a saner future for the planet.

The six month programme is divided into three parts

## **Foundation Module**

1. Connecting with Self, Land and Community
2. Food and Wellness
3. Perspectives on Chemical Free Farming
4. Ecological Living in Urban Area
5. Holistic Design for Living
6. Equity and Economics
7. Life Space Design
8. Communication and Expression

**Electives:** you can choose one of the following

- \* *Holistic Education*
- \* *Ecological Farming*

## **Internship**

Eligibility:

Bachelor's degree in any discipline / good knowledge of English and keen interest in one or more aspects of sustainability and/or education; minimum age: 21 years.

***In special cases, this requirement can be waived.***

or log onto: [www.bhoomicollege.org](http://www.bhoomicollege.org) and fill in the application form online.

# Bhoomi Fellowship Programme

## Alumni Speak

*The programme helped me gain holistic perspectives and make connections between the macro and micro elements. It gave me a clear sense of direction, deeper confidence and a strengthening of resolve. I could then move ahead on the path of my choice to work in building resilient village communities.*

**Madhavi Rane**

Sustainable Living Fellow, 2017-18  
Sustainability Practitioner

*My time at Bhoomi has helped me anchor deeply in my conviction to work in the space of regenerating forests. Today, I work towards bringing back native Himalayan forests and also facilitate programmes for youth in the region.*

**Manvendra Singh**

Sustainable Living Fellow, 2012-13  
Community Forester

*Bhoomi has been a nurturing force, it has enabled me to get in touch with my deeper self. The programme helped me understand the child as a whole and create spaces for children to experience themselves completely. As a high school facilitator in Prakriya now, my understanding has deepened, of schools being spaces for not only intellectual growth but also emotional, spiritual and practical learning.*

**Suhasini Pandey**

Holistic Education Fellow, 2018-19  
Facilitator, Prakriya Green Wisdom School

*Bhoomi College has been a life - transforming experience... it has enabled me to work with government school teachers, challenge their perspectives, reflect on their experiences and influence their actions.*

**Vaishnavi Srinivasan**

Holistic Education Fellow, 2016-17  
Executive Director, Bhumi

The current pandemic has made it clear to all of us the interconnectedness between human and planetary health is undeniable. The goal for us as humanity now is to respect the systems in nature that make human wellbeing and ecological wellbeing possible.

And to do this, as David Orr puts it, the planet needs *“not successful people but more peacemakers, healers, restorers, storytellers, and lovers of every kind. It needs people who live well in their places. It needs people of moral courage willing to join the fight to make the world habitable and humane.”*

In the midst of every crisis, lies great opportunity. The need of the hour is to not only relook at our larger education and economic systems but also to reimagine learning and living for ourselves. Bhoomi College is a space that offers you the possibility of such a transformational learning journey - *one that looks to heal ourselves, our local communities, our planet and our collective future.*

The time for deep systemic and personal transformation is now ...

**Are you ready for the journey?**
