

Bhoomi College

Journeys with Bhoomiwasis - Episode 3

Meet fellowship alumni of Bhoomi College who are on journeys towards becoming eco-leaders and holistic educators

www.bhoomicollege.org

Speakers - Episode 3

Madhu Reddy
(Bhoomi Fellow, 12-13)

Madhu Reddy has been redesigning her family farm according to Permaculture principles since 2014. Through events and talks at the farm, she raises awareness on local food, and the impact food production has on our health and the planet. She also facilitates courses on Permaculture Design.

Aparna Deshpande
(Bhoomi Fellow, 18-19)

Aparna is a food and nature lover and a conscious and mindful parent. She is currently working at 'School of Regenerative Agriculture', encouraging rural youth to take up sustainable and regenerative agricultural practices.

Madhavi Rane
(Bhoomi Fellow, 17-18)

Madhavi is a sustainable living practitioner and founder at Jeevisha. Along with her family, she is learning farming, natural building and making natural products. She is also working on developing a community & knowledge exchange centre.

Bhoomi College

Journeys with Bhoomiwasis - Episode 4

Meet fellowship alumni of Bhoomi College who are on journeys towards becoming eco-leaders and holistic educators

www.bhoomicollege.org

Speakers - Episode 4

Puja Uchil
(Bhoomi Fellow, 19-20)

An engineer turned educator, Puja is passionate about making learning more joyful and meaningful. Her commitment towards education led her to initiate HOLISTICEDU, a platform that conducts workshops for parents and educators on how to make learning more meaningful.

Babitha P.S
(Bhoomi Fellow, 18-19)

Babitha has been deeply involved in creating awareness on issues including waste management and sustainable menstruation. She believes in co-creating eco-wise communities and mentors various youth organizations in Kerala.

Chandan Mulherkar
(Bhoomi Fellow, 14-15)

Chandan is an environmental educator, corporate trainer and Permaculturist. His mission is to present a deep investigation of the ecological-spiritual crisis we face today. He draws connections between the sciences of the East and West, spirituality and environmentalism.
